Dr. Miles' Heart Cure

Cures a Prominent Attorney.

MR. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

THIRD TIME

Sampson Again Bombards the Spanish Batteries at Santiago.

EL MORRO IS SPARED

Because It Is There the Brave Hobson Is a Prisoner.

ASSAULT WAS TERRIFIC

All Ships in the Fleet Taking Part.

Vesuvius Dropped Dynamite Into the Harbor Where the Torpedobombs Lay Before the Other Vessels Came Into Action—The New Orleans and Texas' Execution Was Terribly Effective on the Enemy's Works—Dons Deserted Their Guns and One Battery Was Blown to Atoms.

Off Santiago de Cuba, June 16, via Kingston, Jamaica, June 17.—Rear Admiral Sampson's fleet bombarded the batteries at Santiago de Cuba for the third time at daylight yesterday. For hours the ships pounded the batteries at the right and left of the entrance, only sparing El Morro, where Lieutenant Hobson and his companions of the Merrimac are in prison. The western batteries, against which the main assault was directed, were badly wrecked. One was utterly destroyed. In others many guns were dismantled.

At first the Spaniards replied passionately and wildly, but impotently. Then most of the guns were deserted. Not a ship was struck nor a man injured on the American side. It is believed that the enemy's loss of life was heavy.

As a preliminary to the hammering given the batteries the dynamite cruiser Vesuvius at midnight was given another chance. Three 250-pound charges of gun cotton were sent over the fortifications at the entrance. The design was to drop them in the bay, around the angle back of the eminence on which El Morro is situated, where it was known that the Spanish torpedobomb destroyers were lying. Two charges went through, as no reports were heard—a peculiarity of the explosion of gun cotton in water. Whether the destroyers were demolished is not known, but the destructive area of gun cotton is large and it would not be surprising if it is subsequently ascertained that one or both were destroyed.

The third charge exploded with terrific violence on Cayo Smith. From where the fleet lay the entrance to the harbor looked, in the black night, like a door opening into the livid fire of a titanic furnace. A crater big enough to hold a church was blown out of the side of the Cayo Smith and was clearly seen from the ships.

The woman who truly loves her husband will keep a watchful eye on his health. She will remember that if his health is neglected, any telephone call from the office may be a message that he has been stricken by death. The average man does not feel that he has time to fool away at trifling indispositions. He says he leaves sickness to the women folks. That is the way men commit suicide—tens of thousands of them. A woman can stand between this danger and her husband if she will. A little watchfulness—a suggestion now and then and a little of a good general remedy always at hand may save her husband's life. Dr. Pierce's Golden Medical Discovery is a remarkable remedy for hard working men and women. In a certain sense, it is a cure-all, for the reason that it goes down to bed-rock and cures the disorders that are responsible for the majority of all cases of laryngeal, bronchial, throat and kindred affections, which, if neglected, lead up to consumption. It is an unfailing remedy for all nervous disorders. A honest dealer will not urge a substitute.

"Last winter I took sick with what the doctors called a gripe," writes Mrs. Sarah Parley, of Fairfax, Atchison Co., Mo. "I was sick for about four months and nothing that I took seemed to do me any good. My friends thought I had consumed. I coughed up blood for a long while, and nearly gave up all hope of ever getting well. I heard of Dr. Pierce's Golden Medical Discovery and thought I would try it. I had not finished the first bottle when I began to feel better. I have taken two bottles of the 'Golden Medical Discovery' and one of the 'Favorite Prescription' and I feel as well as I have for years."

Coffee was served to the men at 3:30 yesterday morning and with the first blush of dawn the men were called quietly to quarters. The ships steamed in 5-knot speed to a 3,000-yard range, when they closed up, broadside on, until a distance of three cable lengths separated them. They were strung out in the form of a crescent, the heavy fighting ships in the center, the flagships on the right flank and the Massachusetts on the left flank.

The admiral signalled the ships not to fire until the enemy's guns in the embrasures could be seen by the gun captains.

Fifteen minutes later the New York opened with a broadside from her main

WHAT A THIRTEEN-INCH GUN DID.

battery at the works on the east side of the entrance of the harbor. All the ships followed in red streaks of flame. The fleet, enveloped in smoke, pelted the hills and kicked up dirt and masonry. It was a magnificent spectacle from where the dispatchboat lay.

Though the gun captains had been cautioned not to waste ammunition, but to fire with deliberation, the fire was so rapid that there was almost continuous report. The measured crash of the big 13-inch guns of the battleships sounded above the rattle of the guns of the secondary batteries like thunder claps above the din of a hurricane. A strong land breeze off the shore carried the smoke of the ships seaward, while it let down a thick curtain in front of the Spanish gunners.

In 15 minutes one western battery was completely wrecked. The Massachusetts tore a gaping hole in the emplacement with a 1,000-pound projectile and the Texas dropped a shell into the powder magazine. The explosion wrought terrific havoc. The frame was lifted, the sides were blown out and a shower of debris fell in every direction. One timber, carried out of the side of the battery, went tumbling down the hill. The loss of life must have been great.

The batteries on the east of Morro were harder to get at, but the New Orleans crossed the bows of the New York to within 500 yards of shore and played a tattoo with her long 8-inch rifles, hitting them repeatedly, striking a gun squarely muzzle on, lifting it off its trunnions and sending it sweeping a somersault high in the air.

At the close of the action a stream of multicolored flags floated from the New York generally complimenting the ships and especially commending the work of the Texas and the New Orleans.

The men of the New Orleans raised a cheer, which was passed quickly on from ship to ship, until every jackie in the fleet was howling himself hoarse.

CRITICISM DISMISSED.
Cubans Have Shown Their Metal in Capturing Acerraderos.

Washington, June 17.—The work of the Cubans in reinforcing the marines at Guantanamo, and particularly in occupying Acerraderos, is receiving unstinted praise from officials here. Secretary Quesada and the Cuban officials also take much satisfaction in these reports.

Mr. Quesada said yesterday that the Cubans had not seen fit to reply to criticism current during the last few weeks as to the ineffectiveness of the Cuban soldiers, as they knew the criticisms were due to an ignorance of the careful plans, largely matured at Washington, by which the Cuban forces were to execute their part of a well considered programme.

CHICKAMAUGA.

General Brooke Thinks His Army Almost Ready For Any Kind of Duty. Chickamauga National Military Park, Ga., June 17.—The commanding officers of the army took advantage yesterday of the fine weather to put the commands through various drills and instruction exercises, and every regiment at the park was in the field from three to five hours. General Brooke is greatly pleased with the progress being made and now feels confident that as soon as thoroughly equipped his army will be already for most any kind of duty to which they may be assigned.

Colonel Lee, chief quartermaster, has been a very busy man since the troops began to arrive at the park, and yet his work is only fairly under way. He stated that, notwithstanding the numerous shipments of wagons and mules that have arrived, the regiments are only partially provided for, at least one half the wagons and teams allowed the regiments having yet to be supplied.

The Dixon Poisoner Hanged.
Sacramento, June 17.—Frank Bellows, the Dixon poisoner, was hanged at the Folsom prison yesterday. He made no confession or statement on the scaffold, but reiterated the statement he made after his arrest, in which he admitted he murdered his brother and sister because he had not received a fair share of his father's estate.

Fire in Armour's Packinghouse.
Chicago, June 17.—A fire broke out in a part of the Armour packinghouse in the stockyard and a general alarm was sent in. The building in which the fire started was gutted and the flames spread to the adjoining paintshop.

Approved by the Sultan.
Constantinople, June 17.—The sultan has given notification of his approval of the appointment of Oscar S. Straus of New York as United States minister to Turkey, in succession to Dr. James B. Angell, resigned.

SAMPSON AND DEWEY

No News Received From Either at the War Department.

MUCH FEVERISH ACTIVITY

Indications That Important News Is Expected Soon.

REWARD OF HOBSON

President Will Let the Brave Lieutenant Choose His Own Remuneration—The Army of Invasion of Porto Rico Will Require Thirty-five Ships to Transport It to the Island.

Washington, June 17.—No word came from Sampson at Santiago or from Dewey at Manila yesterday. This absence of affirmative news from the respective seats of war gave rise to no apprehension. The officials are resting secure in the belief that the marines at Guantanamo can easily maintain themselves until the troops arrive, and the worst that can be feared at Manila is not harm to Dewey, but to the Spaniards in the city.

The officials of the war department do not care to give out any specific information as to when General Shafter, with his troops, will land in Cuba, but it is evident they would not be surprised to have some very important news within the next 24 or 36 hours.

There was an exhibition of feverish activity at the war department yesterday so pronounced as to attract attention even in these stirring times. It was apparent that renewed efforts were making to complete the equipment of the troops already gathered at the concentration points and that preparations are in progress to move a number of troops. So far, however, it is stated that no orders have gone out for the actual movement, and what has been and is being done in that direction is merely preparatory. Very likely definite action will follow a conference which Secretary Alger and the president will have with General Miles, who arrived here today from Tampa. If General Miles recommends a further concentration of troops on the southern seaboard, the new camp at Fernandina, Fla., will be made ready for the reception of the additional troops.

The president has not decided what measure of reward shall be meted out to Hobson for his brave achievement. The men he led have been taken care of; Secretary Long has taken care to that himself because it was a matter entirely within his authority, and they have been made warrant officers, the ideal of a sailor's ambition. The department had about decided to advance Hobson 10 numbers, which would have placed him just below Constructor Linnard, when a doubt arose as to whether the young man would not prefer a transfer to the line and it was decided to allow Hobson to make his choice as between the line and staff.

The navy department has sent to the battleship Massachusetts a complete new breech mechanism for one of the big 13-inch guns of that ship. The condition of this 13-inch gun gave rise to rumors that the Massachusetts had suffered severely during the first action off Santiago and that two of the big guns were disabled and a gunner killed. There was no basis for the rumor beyond the disordered breech mechanism referred to.

PORTO RICO INVASION.

Thirty-Five Transports Will Be Used In the Expedition.
Washington, June 17.—The war department expects to utilize approximately 35 transports in the expedition for the invasion of Porto Rico. This statement was made officially at the department yesterday. It seems to indicate that the Porto Rico army will equal if not exceed in numbers that which left for Santiago. The estimate is made that the 35 vessels will carry between 15,000 and 20,000 men, with their equipments and subsistence. Army officials say that reports which have been received from reliable sources show that the number of Spanish soldiers in that country is probably 10,000 men.

Cruiser Philadelphia.
San Francisco, June 17.—The question who shall command the cruiser Philadelphia has been settled in favor of Captain George H. Wadleigh, now on duty at the Boston navyyard. Captain Wadleigh was formerly in command of the cruiser Minneapolis. The Philadelphia will be put in commission about the 1st prox. and will be the flagship of the Pacific station. Her first cruise will probably be to Honolulu.

Bread Supply Giving Out.
London, June 17.—The correspondent of The Times at Kingston, Jamaica, cables that, according to advices brought there from Havana by the British cruiser Talbot, which left the Cuban capital June 8, with a number of refugees and newspaper correspondents on board, the bread supplies in Havana would probably give out by the middle of June, though meat, fruit and vegetables were plentiful.

To Increase the Army Rations.
Washington, June 17.—Representative Davidson of Wisconsin has introduced a bill increasing the army ration by the addition of one-quarter of one pound of pure American cheese. A similar bill has been introduced by Representative Pickering of New York.

WILL BE A RICH PRIZE.

Pursima Concepcion Has Sailed From Kingston With Supplies For Dons.

Kingston, Jamaica, June 17.—The Spanish steamer Pursima Concepcion, loaded with food for Manzanillo, has left Kingston, taking a westward course. The colonial authorities ignored the protest of United States consul Dent as not based on sufficient evidence, and gave the ship her clearance.

The Pursima Concepcion arrived at Kingston in the latter part of May from Manzanillo with a Spanish commissariat officer in disguise seeking supplies.

There is little likelihood that she will reach her destination, as Admiral Sampson is fully aware of her plans and has probably detailed a fast auxiliary cruiser to capture her and the Spanish officer, Lieutenant Commander Joaquin Montague, who is understood to have left Kingston with her.

The Yosemite, with other American cruisers, had been especially warned about this Spaniard, as she would be a rich prize. She is said to have \$100,000 in gold on board. Her cargo of food and medicine is destined ultimately for Cienfuegos and Havana.

SITUATION SERIOUS.

Senor Sagasta Speaks Thus of Conditions at Manila.

Madrid, June 17.—The bank of Spain has agreed to place 28,000,000 pesetas at the disposal of the treasury for war purposes. A dispatch received here from the commander of the Vizcayas Islands and Mindanao, the latter the second largest island of the Philippine group, under date of June 11, says that an envoy sent to Iloilo, island of Pana, with instructions to endeavor to communicate with Governor General Augusti failed in his mission. The messenger, the dispatch adds, found that the telegraph lines on the island of Luzon, of which Manila is the capital, had been cut by the insurgents and the native militia were deserting by the wholesale. The Vizcayas islands and the island of Mindanao were quiet. A dispatch from the governor of Santiago de Cuba, says that nothing of a fresh nature has occurred at that place.

Premier Sagasta, upon leaving the cabinet council, said that two provinces of Luzon were still loyal to the Spanish government, but that the situation in Manila was of the most serious character.

THE THIRD EXPEDITION.

May Be Three Weeks Before It Gets Started For The Philippines.

San Francisco, June 17.—The Bulletin says: News was received today that all the troops now in San Francisco and assigned for duty in Manila will leave by the third expedition. This body of men will be augmented by the regiments now on the way to this city. Only four transport ships have actually been secured to handle the men and it is announced that 12 more will be needed. The third expedition cannot possibly start on the 24th of this month unless the steamers Indiana, Morgan City and Ohio are detached and sent out in squadron. If the vessels are held for a general gathering of transports to carry all of the remaining men for the Philippine army of invasion it will be at least three weeks before the fleet can be made ready or perhaps a month.

ROAD IMPASSABLE.

Will Be Hard to Move American Artillery Between Santiago and Caimanera.

London, June 17.—The Madrid correspondent of The Times, commenting on the absence of Spanish news as to the operations at Guantanamo, says: "General Linares sent emissaries from Santiago to Caimanera to make inquiries, but the roads proved almost impassable. This suggests reflections as to the probable rate of advance of the Americans, hampered by artillery and impediments and opposed by efficient and well seasoned Spanish troops."

COOLED THE TERROR.

The Alleged Spanish Hospitalship Allocated.

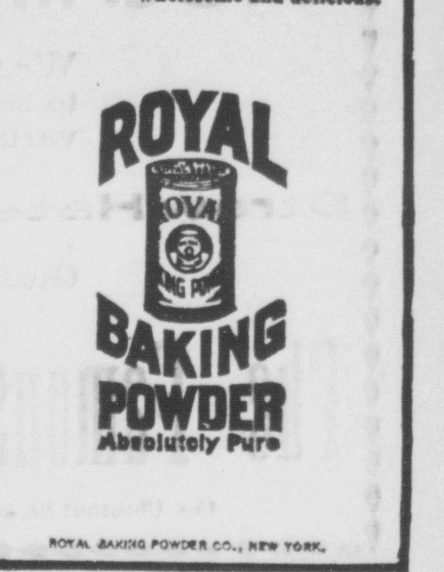

Key West, June 17.—The hearing in the case against the British steamer Twickenham, captured last Friday night off Morant Point, Jamaica, by the auxiliary cruiser St. Louis, with a cargo of coal destined presumably for Admiral Cervera, or other Spanish warships, was begun yesterday before the prize court, but was not concluded. The steward, William Thompson, gave damaging evidence concerning the vessel's movements. He deposed that he saw the Alicante, the alleged Spanish hospitalship, coaling the Spanish torpedobomb destroyer Terror at Port de France.

Liner San Augustin Detained.
Gibraltar, June 17.—The Spanish trans-Atlantic liner San Augustin has arrived here from Cadiz for the purpose of shipping 1,800 tons of coal. She has been detained by the British authorities pending a guarantee that the coal is intended for purely commercial purposes.

That Cadiz Squadron.
Paris, June 17.—The European edition of the New York Herald says: "The Cadiz squadron sailed at sunrise on Wednesday, but returned in the evening."

Assaulted by a Lunatic.
Hopkinsville, Ky., June 17.—Dr. H. G. Sighs, second assistant physician at the Western Lunatic asylum, was assaulted by a male patient named Cannon, and had his nose broken and his face so fearfully mangled that he has gone to New York city to have his injuries treated by a specialist.

WHIPPED TO PRISON

Treatment Meted Out to a Negro Brute at Glasgow, Ky.

Glasgow, Ky., June 17.—The sight of three or four men on horseback driving a negro on foot in front of them, and lashing him with whips and switches as they came, created a sensation upon the streets here. He was pausing heavily and blood was flowing from his face and neck where the whips had hit him. Around his body a rope was tied, and one end was held by J. W. Read, one of the horsemen. The negro was driven on to the county jail and there locked up upon a charge of assaulting a little 4-year-old white girl.

His name is Caleb Gaines, and he is about 18 years old. He came to this county from Hart county only about two weeks ago. Whether he will be permitted to remain in jail until the law deals with him is yet to be told.

EUREKA COLLEGE

Free From Debt and Has a \$100,000 Addition to Its Endowment Fund.

Eureka, Ills., June 17.—Eureka college, an institution conducted under the auspices of the Disciples of Christ, celebrated its 50th anniversary yesterday with a jubilee meeting of its alumni at which it was announced that the \$30,000 necessary to free the institution from debt had been raised and that, in addition, over \$100,000 had been added to its endowment fund.

Offered \$900 For Four Stamps.
Louisville, Ky., June 17.—Andy Hatzman, a janitor of the courthouse, found four stamps in the basement of the building for which he has been offered \$900. He has not accepted, thinking he can get more. A few years ago some courthouse janitors found a lot of old stamps which they sold for \$13,000.

Made Another Record.
Decatur, Ills., June 17.—The Continental limited on the Wabash, which has been breaking speed records in the last two weeks, made a new record yesterday. The run from Tilton to Granite City—176 miles—was made in 170 minutes. This included three stops, aggregating 7 1/2 minutes, making the actual running time 162 1/2 minutes.

THE EXCELLENCE OF SYRUP OF FIGS

Vesuvius Dropped Dynamite Into the Harbor Where the Torpedobombs Lay Before the Other Vessels Came Into Action—The New Orleans and Texas' Execution Was Terribly Effective on the Enemy's Works—Dons Deserted Their Guns and One Battery Was Blown to Atoms.

Off Santiago de Cuba, June 16, via Kingston, Jamaica, June 17.—Rear Admiral Sampson's fleet bombarded the batteries at Santiago de Cuba for the third time at daylight yesterday. For hours the ships pounded the batteries at the right and left of the entrance, only sparing El Morro, where Lieutenant Hobson and his companions of the Merrimack are in prison. The western batteries, against which the main assault was directed, were badly wrecked. One was utterly destroyed. In others many guns were dismantled.

At first the Spaniards replied passionately and wildly, but impotently. Then most of the guns were deserted. Not a ship was struck nor a man injured on the American side. It is believed that the enemy's loss of life was heavy.

As a preliminary to the hammering given the batteries the dynamite cruiser Vesuvius at midnight was given an opportunity. Three 250-pound charges of gun cotton were sent over the fortifications at the entrance. The design was to drop them in the bay, around the angle back of the eminence on which El Morro is situated, where it was known that the Spanish torpedobomb destroyers were lying. Two charges went through, as no reports were heard—a peculiarity of the explosion of gun cotton in water. Whether the destroyers were demolished is not known, but the destructive area of gun cotton is large and it would not be surprising if it is subsequently ascertained that one or both were destroyed.

The third charge exploded with terrific violence on Cayo Smith. From where the fleet lay the entrance to the harbor looked, in the black night, like a door opening into the livid fire of a titanic furnace. A crater big enough to hold a church was blown out of the side of the Cayo Smith and was clearly seen from the ships.

The woman who truly loves her husband will keep a watchful eye on his health. She will remember that if his health is neglected, any telephone call from the office may be a message that he has been stricken by death. The average man does not feel that he has time to fool away about trifling indispositions. He is too busy making money. He says he leaves sickness to the women folk. That is the way men commit suicides—of thousands of them. A woman can stand between this danger and her husband if she will. A little watchfulness—a suggestion now and then and a little of a good general remedy always at hand may save her husband's life. Dr. Pierce's Golden Medical Discovery is a remarkable remedy for hard working men and women. In a certain sense, it is a cure-all, for the reason that it goes down to bed-rock and cures the disorders that are responsible for the majority of serious illnesses. It strengthens the stomach, and makes the appetite keen and hearty. It invigorates the liver. It aids the natural processes of secretion and excretion. It makes the assimilation of the food perfect. It purifies the blood and fills it with the life-giving elements that build new and healthy flesh tissue. It tones the nerves. It is the great blood-maker and flesh-builder. It cures all cases of all cases of laryngitis, bronchitis, throat and kindred affections, which, if neglected, lead up to consumption. It is also an unfailing remedy for all nervous disorders. An honest dealer will not urge a substitute.

"Last winter I took sick with what the doctors called 'la grippe,' writes Mrs. Sarah Parley, of Fairfax, Atchison Co., Mo. 'I was sick for about four months and nothing that I took seemed to do me any good. My friends thought I had consumption. I coughed up blood for a long while, and nearly gave up all hope of ever getting well. I thought of Dr. Pierce's Golden Medical Discovery and thought I would try it. I had not finished the first bottle when I began to get better. I took a second bottle and one of the 'Favorite Prescription' and feel better than ever before in my life."

Coffee was served to the men at 3:30 yesterday morning and with the first blush of dawn the men were called quietly to quarters. The ships steamed in 5-knot speed to a 3,000-yard range, when they closed up, broadside on, until a distance of three cable lengths separated them. They were strung out in the form of a crescent, the heavy fighting ships in the center, the flagship on the right flank and the Massachusetts on the left flank.

The admiral signalled the ships not to fire until the enemy's guns in the embrasures could be seen by the gun captains.

Fifteen minutes later the New York opened with a broadside from her main

WHAT A THIRTEEN-INCH GUN DID.

battery at the works on the east side of the entrance of the harbor. All the ships followed in red streaks of flame. The fleet, enveloped in smoke, pelted the hills and kicked up dirt and masonry. It was a magnificent spectacle from where the dispatchboat lay.

Though the gun captains had been cautioned not to waste ammunition, but to fire with deliberation, the fire was so rapid that there was almost continuous roar. The measured crash of the big 13-inch guns of the battleships sounded above the rattle of the guns of the secondary batteries like thunder claps above the din of a hurricane. A strong land breeze off the shore carried the smoke of the ships seaward, while it let down a thick curtain in front of the Spanish gunners.

In 15 minutes one western battery was completely wrecked. The Massachusetts tore a gaping hole in the emplacement with a 1,000-pound projectile and the Texas dropped a shell into the powder magazine. The explosion wrought terrific havoc.

The frame was lifted, the sides were blown out and a shower of debris flew in every direction. One timber, carried off of the side of the battery, went tumbling down the hill. The loss of life must have been great.

The batteries on the east of Morro were harder to get at, but the New Orleans crossed the bows of the New York to within 500 yards of shore and played a tattoo with her long 8-inch rifles, hitting them repeatedly, striking a gun squarely muzzle on, lifting it off its trunnions and sending it sweeping a somersault high in the air.

At the close of the action a stream of multicolored flags floated from the New York generally complimenting the ships and especially commending the work of the Texas and the New Orleans.

The men of the New Orleans raised a cheer, which was passed quickly on from ship to ship, until every jackie in the fleet was howling himself hoarse.

CRITICISM DISARMED.

Cubans Have Shown Their Metal in Capturing Acerraderos. Washington, June 17.—The work of the Cubans in reinforcing the marines at Guantanamo, and particularly in occupying Acerraderos, is receiving unstinted praise from officials here. Secretary Quesada and the Cuban officials also take much satisfaction in these reports.

Mr. Quesada said yesterday that the Cubans had not seen fit to reply to criticism current during the last few weeks as to the ineffectiveness of the Cuban soldiers, as they knew the criticisms were due to an ignorance of the careful plans, largely matured at Washington, by which the Cuban forces were to execute their part of a well considered programme.

"But now that the Cuban flag is floating over Acerraderos," continued Mr. Quesada, "all the criticisms are answered. Acerraderos is about 15 or 20 miles west of Santiago, and is the port for the great iron and copper mines of that locality. It should not be confounded with Aquaderos, another suburban town to the southeast of Santiago. But it is even more important, from a strategic standpoint, than Aquaderos, as it has exceptional landing facilities."

"The achievement of General Rabi in making a forced march from Bayamo is characteristic of the dash and military genius of that officer. He is chief of staff of Garcia and has the rank of general of a division, which is midway between your brigadier general and major general. He is about 45 years old, tall, thin and muscular, and knows no fear. He takes pride in the fact that he is partly of Indian descent, and he has the natural fighting quality of an Indian. He made a name for himself during the last Cuban war, and soon took high rank when the present war broke out."

"When General Martinez Campos thought to make short work of the present war, he led the Spanish forces to Saelol Indian, Cacuaco, and Peralejo, where he met General Rabi with a Cuban army much smaller than that of

Campos. But in each of those desperate engagements Rabi outgeneraled and defeated Martinez Campos, the recognized military genius of Spain. It led Campos himself to declare that in Rabi he had met a soldier worthy of his best efforts.

In occupying Acerraderos, General Rabi had with him about 1,000 men, while Garcia is coming up with 5,000 to 6,000 more Cubans. The march of Rabi can hardly be appreciated by any one not familiar with the mountains, swamps and tangled tropical vegetation through which he pushed his way from Bayamo to Acerraderos. It is extremely gratifying to Cubans that Admiral Sampson should immediately recognize this movement, and should officially report it in such complimentary terms to the navy department."

CHICKAMAUGA.

General Brooke Thinks His Army Almost Ready For Any Kind of Duty.

Chickamauga National Military Park, Ga., June 17.—The commanding officers of the army took advantage yesterday of the fine weather to put the commands through various drills and instruction exercises, and every regiment at the park was in the field from three to five hours. General Brooke is greatly pleased with the progress being made and now feels confident that as soon as thoroughly equipped his army will be ready for most any kind of duty to which they may be assigned.

Colonel Lee, chief quartermaster, has been a very busy man since the troops began to arrive at the park, and yet his work is only fairly under way. He stated that, notwithstanding the numerous shipments of wagons and mules that have arrived, the regiments are only partially provided for, at least one-half the wagons and teams allowed the regiments having yet to be supplied.

The Dixon Poisoner Hanged.

Sacramento, June 17.—Frank Bellow, the Dixon poisoner, was hanged at the Folsom prison yesterday. He made no confession or statement on the scaffold, but reiterated the statement he made after his arrest, in which he admitted he murdered his brother and sister because he had not received a fair share of his father's estate.

Fire in Armour's Packinghouse.

Chicago, June 17.—A fire broke out in a part of the Armour packinghouse in the stockyard and a general alarm was sent in. The building in which the fire started was gutted and the flames spread to the adjoining paintshop.

Approved by the Sultan.

Constantinople, June 17.—The sultan has given notification of his approval of the appointment of Oscar S. Straus of New York as United States minister to Turkey, in succession to Dr. James B. Angell, resigned.

THE WAR LOAN.

The present administration is to be congratulated on its decision to offer the entire issue of the bonds for the war to the people of the country, in such denominations that almost anybody can own more or less of the bonds. The series is to be issued in denominations of \$20, \$100, \$500 or larger. This makes it possible for the people to take the entire issue, for the authorities have announced that the preference will be given in accepting the subscriptions to those who subscribe for the small amounts. It is to be a popular loan in the fullest sense of the term and the people are given the preference over the bankers and syndicates who have already announced their willingness to take all of the issue that is not taken by the people.

United States bonds are recognized everywhere as the most secure form of investment that can be obtained. There is never any question as to their value. They are always saleable, so that anyone holding U. S. bonds can turn them into cash at once. If one wishes to borrow money they can be used as collateral to secure the loan and are always desirable for this purpose. Another feature that makes the bonds desirable is that they are not subject to taxes of any kind, federal, state or municipal, and while the rate of interest paid by the government is low, it is practically as good as when money is loaned at six per cent. and taxes amounting to between two and three per cent. paid on it. Another feature is that the interest is paid quarterly instead of annually. Subscriptions for the war loan can be made at any post-office or national bank until July 14 when the period of subscriptions will end. For all amounts of less than \$500 the money must be paid at the time the subscription is made, and the government pays interest on it from the time the money is paid in. We believe that the loan will be popular with the people and will strengthen the administration with them. It would be a good thing if a considerable part of the loan could be taken by Seymour and Jackson county people who have money, which they wish to invest where it will bring a fair return and be absolutely secure.

The matter of the violations of the bicycle ordinance was called to the attention of the council last night. There is no question that its provisions should be more rigidly observed by riders in all parts of the city. Foot travelers are frequently more or less endangered by the violators of the ordinance. It is impossible for the police of the city to be in all places at the same time to apprehend violators of the law and it becomes the duty of every citizen to see that in his own case there is no cause of complaint from any violation of law on his part.

EVERYONE admits the success of yesterday's outing under the auspices of the business men of this city. The entire plan was well arranged and executed. A great deal of the credit for success of the day is due to the local committee who had the arrangements in charge. Yesterday's success was another demonstration of the fact that Seymour never does anything by halves.

HELP IS AT HAND.
JOHN MORROW'S DISCOVERY GIVES HELP TO DIABETES PATIENTS.
One of the Worst Diseases Known to Man is Overcome by Modern Science.

When the common symptoms of kidney troubles are neglected the careless sufferer is in great danger of contracting diabetes or Bright's disease, two of the most terrible afflictions that have been imposed on mankind. The remedy for the earliest stages, as well as the worst cases, one that will restore the kidneys to sound health, is Morrow's Kidneys. These yellow tablets are taken when the back aches, or when headaches, chilliness, loss of energy or pain in urinating show that the kidneys are out of order. Diabetes, that disease which is almost as deadly as Bright's disease, is indicated by failure of strength and emaciation. The mouth is pasty skin hard and dry, bowels are constipated, vomiting is frequent, the vision becomes dim, memory and intellect fail and the temper becomes irritable.

A recent case of the cure of this awful disease by Morrow's Kidneys is that of Mr. C. E. Clippinger, a well-known confectioner of 35 South Limestone street, Springfield, Ohio. He writes:
"I have been a constant sufferer from kidney disease for the past year. Very often upon arising in the morning the pain was so severe I could scarcely get about at all. I consulted with different physicians and they all told me that I was troubled with diabetes, and treated me for them everywhere and they all failed to give me any benefit from their medicine. I was finally persuaded to give Morrow's Kidneys a trial, and to my great surprise after I had taken but one box, the pain left me and I have experienced no trouble since then. I feel entirely well, and am enjoying better health in every way than for several years."

The fame of Morrow's Kidneys has created a demand for them everywhere and they are now sold by all dealers at 50 cents a box, six boxes for \$2.50. If for any reason the dealer cannot supply you, they will be sent postpaid on receipt of the price by the Herb Medicine Co., Springfield, Ohio.

THE VICIOUS JAGUAR
HE FINDS A DEADLY ENEMY IN THE PLUCKY PUMA.

These Fierce South American Brutes Fight Each Other to the Death on Sight—Two Battles That Show the Characteristics of the Animals.

"On the Apure river, near its head, lives—or did live there five years ago—a woman of mixed Spanish and Indian race named Maria Padilla, the wife of the mayordomo, or foreman, of a cattle ranch. I have talked with her and heard from her lips the account of the strange adventure she had when a child of 7 years.

"Her parents with their children were making a journey over a trail that led along the foothills of the Maritime Andes. They had camped for the night, and this child, while her parents' attention was occupied, started into the forest to gather firewood as she had often seen her mother do. Her absence was not noticed until she had been gone some time from the camp. As she gathered dry sticks into a bundle she saw a large, spotted animal stealing swiftly toward her.

"Every South American country girl of 7 knows a jaguar when she sees him, whether she has ever seen one before or not, for the dread of these animals is an instinct among the inhabitants of regions which they frequent. Overcome by fear the girl could only stand still and await her fate. With her eyes riveted on the jaguar she did not see where they came from, but of a sudden she perceived that he was savagely fighting with two huge, tawny animals that had sprung upon him.

"The fight seemed to her to last a long time, and once the brutes in their struggles came very near to where she stood. The pumas that had attacked him killed the jaguar at last, and after standing over the body a few minutes as if to assure themselves that he would not revive they for the first time turned their gaze toward the child, who had been too much terrified to improve her chance to run away while the beasts were fighting.

"They favored her with a long stare, and then, not offering to approach or harm her, turned deliberately away and trotted into the depths of the forest. They scarcely had disappeared when her father, having missed the child and guided by the sounds of the fight, came running to the place with gun and machete and found her safe. He got a jaguar skin as a trophy, though it was cut too nearly into ribbons by the pumas' claws to be of value.

"In the Guarico country, at a village called Paraya, near the Merida trail, I saw an Indian named Jose Lobado whose face and head were deeply scarred and whose body was a network of similar scars from wounds received through being carried away by a jaguar when an infant in arms. Of course he could not remember the occurrence, but his mother, who had rescued him, described it to me.

"She had gone to a mata, or wooded spot, on the pampas for firewood, carrying her child, after the fashion of Venezuelan women of humble station, in a shawl looped from her shoulder. This shawl, with the small boy in it, she slung to a low tree branch while she gathered her bundle of sticks, and she did not perceive the approach of a jaguar until he had seized the child and was carrying it away.

"The mother grasped her machete and ran after the jaguar, shrieking. She managed to keep the beast in sight, but he was rapidly getting beyond her view when suddenly the jaguar stopped, put the child down and bristling for fight stood with his forepaws resting upon it.

"Then the mother saw that a puma was fronting the jaguar. She hurried on toward where the two beasts faced each other, growling and snarling. Before she got to them the puma sprang, and at once the two were fighting fiercely above the child. In the struggle the child was rolled to one side, but before the mother could get to it the jaguar broke away from the puma and springing to the boy again crouched with his paws above him as before.

"The puma leaped again and the fight was renewed, but again the jaguar got clear and jumped to guard his prey before the mother could get a chance to snatch her child. Once more the puma attacked his foe, and this time as the beasts struggled and tore each other an accidental kick from one of them sent the boy 20 feet away, almost to the mother's feet.

"Catching him up she ran for home and got safe to the house. The boy, though covered with claw wounds from head to foot and bearing deep marks of the jaguar's teeth in the back, where the beast had seized him to carry him away, recovered completely from his injuries, although bearing the scars for his lifetime. The puma and the jaguar were found, both dead, at the place where they had fought."—Philadelphia Times.

Deafness Cannot be Cured.
By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

THE WAR LOAN.

The present administration is to be congratulated on its decision to offer the entire issue of the bonds for the war to the people of the country, in such denominations that almost anybody can own more or less of the bonds. The series is to be issued in denominations of \$20, \$100, \$500 or larger. This makes it possible for the people to take the entire issue, for the authorities have announced that the preference will be given in accepting the subscriptions to those who subscribe for the small amounts. It is to be a popular loan in the fullest sense of the term and the people are given the preference over the bankers and syndicates who have already announced their willingness to take all of the issue that is not taken by the people.

United States bonds are recognized everywhere as the most secure form of investment that can be obtained. There is never any question as to their value. They are always saleable, so that anyone holding U. S. bonds can turn them into cash at once. If one wishes to borrow money they can be used as collateral to secure the loan and are always desirable for this purpose. Another feature that makes the bonds desirable is that they are not subject to taxes of any kind, federal, state or municipal, and while the rate of interest paid by the government is low, it is practically as good as when money is loaned at six per cent. and taxes amounting to between two and three per cent. paid on it. Another feature is that the interest is paid quarterly instead of annually. Subscriptions for the war loan can be made at any post-office or national bank until July 14 when the period of subscriptions will end. For all amounts of less than \$500 the money must be paid at the time the subscription is made, and the government pays interest on it from the time the money is paid in. We believe that the loan will be popular with the people and will strengthen the administration with them. It would be a good thing if a considerable part of the loan could be taken by Seymour and Jackson county people who save money, which they wish to invest where it will bring a fair return and be absolutely secure.

The matter of the violations of the bicycle ordinance was called to the attention of the council last night. There is no question that its provisions should be more rigidly observed by riders in all parts of the city. Foot travelers are frequently more or less endangered by the violators of the ordinance. It is impossible for the police of the city to be in all places at the same time to apprehend violators of the law and it becomes the duty of every citizen to see that in his own case there is no cause of complaint from any violation of law on his part.

Everyone admits the success of yesterday's outing under the auspices of the business men of this city. The entire plan was well arranged and executed. A great deal of the credit for success of the day is due to the local committee who had the arrangements in charge. Yesterday's success was another demonstration of the fact that Seymour never does anything by halves.

HELP IS AT HAND.

JOHN MORROW'S DISCOVERY GIVES HELP TO DIABETES PATIENTS.

One of the Worst Diseases Known to Man is Overcome by Modern Science.

When the common symptoms of kidney troubles are neglected the sufferer is in great danger of contracting diabetes or Bright's disease, two of the most terrible afflictions that have been imposed on mankind. The remedy for the earliest stages, as well as the worst cases, one that will restore the kidneys to sound health, is MORROW'S KIDNEYS. These yellow tablets are taken when the back aches, or when headaches, chilliness, loss of energy or pain in urinating show that the kidneys are out of order.

Diabetes, that disease which is almost as deadly as Bright's disease, is indicated by a failure of strength and emaciation. The mouth is pasty, skin hard and dry, bowels are constipated, vomiting is frequent, the vision becomes dim, memory and intellect fail and the temper becomes irritable.

A recent case of the cure of this awful disease by MORROW'S KIDNEYS is that of Mr. C. E. Clippinger, a well-known confectioner of 213 South Limestone street, Springfield, Ohio. He writes:

"I have been a constant sufferer from kidney disease for the past year. Very often upon arising in the morning the pain was so severe I could scarcely get about at all. I consulted with several physicians and they all told me that I was troubled with diabetes, and treated me for same, but I failed to derive any benefit from their medicine. I was finally persuaded to give MORROW'S KIDNEYS a trial, and to my great surprise after I had taken but one box, the pain left me and I have experienced no trouble since then. I feel entirely well, and am enjoying better health in every way than for several years."

The fame of MORROW'S KIDNEYS has created a demand for them everywhere and they are now sold by all dealers at 30 cents a box, six boxes for \$2.00. If for any reason the dealer cannot supply you, they will be sent postpaid on receipt of the price by the Herb Medicine Co., Springfield, Ohio.

THE VICIOUS JAGUAR

HE FINDS A DEADLY ENEMY IN THE PLUCKY PUMA.

These Fierce South American Brutes Fight Each Other to the Death on Sight—Two Battles That Show the Characteristics of the Animals.

"On the Apure river, near its head, lives—or did live there five years ago—a woman of mixed Spanish and Indian race named Maria Padilla, the wife of the mayordomo, or foreman, of a cattle ranch. I have talked with her and heard from her lips the account of the strange adventure she had when a child of 7 years.

"Her parents with their children were making a journey over a trail that led along the foothills of the Maritime Andes. They had encamped for the night, and this child, while her parents' attention was occupied, started into the forest to gather firewood as she had often seen her mother do. Her absence was not noticed until she had been gone some time from the camp. As she gathered dry sticks into a bundle she saw a large, spotted animal stealing swiftly toward her.

"Every South American country girl of 7 knows a jaguar when she sees him, whether she has ever seen one before or not, for the dread of these animals is an instinct among the inhabitants of regions which they frequent. Overcome by fear the girl could only stand still and await her fate. With her eyes riveted on the jaguar she did not see where they came from, but of a sudden she perceived that he was savagely fighting with two huge, tawny animals that had sprung upon him.

"The fight seemed to her to last a long time, and once the brutes in their struggles came very near to where she stood. The pumas that had attacked him killed the jaguar at last, and after standing over the body a few minutes as if to assure themselves that he would not revive they for the first time turned their gaze toward the child, who had been too much terrified to improve her chance to run away while the beasts were fighting.

"They favored her with a long stare, and then, not offering to approach or harm her, turned deliberately away and trotted into the depths of the forest. They scarcely had disappeared when her father, having missed the child and guided by the sounds of the fight, came running to the place with gun and machete and found her safe. He got a jaguar skin as a trophy, though it was cut too nearly into ribbons by the pumas' claws to be of value.

"In the Guarico country, at a village called Paraya, near the Merida trail, I saw an Indian named Jose Lobado whose face and head were deeply scarred and whose body was a network of similar scars from wounds received through being carried away by a jaguar when an infant in arms. Of course he could not remember the occurrence, but his mother, who had rescued him, described it to me.

"She had gone to a mata, or wooded spot, on the pampas for firewood, carrying her child, after the fashion of Venezuelan women of humble station, in a shawl looped from her shoulder. This shawl, with the small boy in it, she slung to a low tree branch while she gathered her bundle of sticks, and she did not perceive the approach of a jaguar until he had seized the child and was carrying it away.

"The mother grasped her machete and ran after the jaguar, shrieking. She managed to keep the beast in sight, but he was rapidly getting beyond her view when suddenly the jaguar stopped, put the child down and bristling for fight stood with his forepaws resting upon it.

"Then the mother saw that a puma was fronting the jaguar. She hurried on toward where the two beasts faced each other, growling and snarling. Before she got to them the puma sprang, and at once the two were fighting fiercely above the child. In the struggle the child was rolled to one side, but before the mother could get to it the jaguar broke away from the puma and springing to the boy again crouched with his paws above him as before.

"The puma leaped again and the fight was renewed, but again the jaguar got clear and jumped to guard his prey before the mother could get a chance to snatch her child. Once more the puma attacked his foe, and this time as the beasts struggled and tore each other an accidental kick from one of them sent the boy 20 feet away, almost to the mother's feet.

"Catching him up she ran for home and got safe to the house. The boy, though covered with claw wounds from head to foot and bearing deep marks of the jaguar's teeth in the back, where the beast had seized him to carry him away, recovered completely from his injuries, although bearing the scars for his lifetime. The puma and the jaguar were found, both dead, at the place where they had fought."—Philadelphia Times.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

I was seriously afflicted with a cough or several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, Mrs. MARY A. BEARD, Claremore, Ark. For sale by C. W. Milhous.

Give the Children a Drink Called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about as much as coffee. 15 and 25c.

MORE TROOPS FOR CUBA

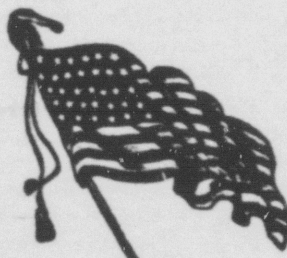

PORTO RICAN EXPEDITION ALSO BEING HASTENED

A Fleet Possibly Will Go Against Spain's Home Ports to Compel Spain to Yield.

Four thousand more soldiers are to be sent to Santiago, starting from Mobile. Re-inforcements have been considered necessary, because Spain has concentrated 12,000 regular and 4,000 volunteers at Santiago, according to reports received at Washington.

The president has directed that every effort be made to have the Porto Rican army ready in two weeks. The army will probably embark from Fernandina, Fla. Some of the transports now with Major General Shafter's army will return after discharging their loads and about fifteen others will be chartered. The army will consist of 20,000 men. Fifteen thousand will be volunteers and 5,000 regulars. Maj. Gen. Coppington will himself make the selections.

It is not unlikely that the United States will shortly send a fleet against Spain's home ports, which will give Admiral Camara's fleet a chance to sail, if only to get out of the road. Nothing will be done until after the completion of the task at Santiago. It is possible the fleet may be composed of the battleships Oregon and Texas, armored cruiser Brooklyn, protected cruisers New Orleans, Minneapolis and Columbia and the auxiliary cruisers Harvard, Yale and St. Louis.

A Spaniard who surrendered because of exhaustion says many more would do so but for tales of butchery told by the Spanish officers.

How to Look good.

Good looks are really more than skin deep depending entirely on a healthy condition of all the vital organs. If the liver is inactive you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils and gives a good complexion. Every bottle guaranteed sold at W. F. Peter's drug store. 50 cents per bottle.

One lot of men and boys all wool sweaters, colors plain, white and red, worth \$1.25 and \$1.50. In order to close them out we will make the price 75 cents. THOMAS CLOTHING CO.

Seymour Takes Indian Springs Six Hundred Strong.—Delightful Trip.

Yesterday was an almost ideal day for a picnic and Indian Springs is a most delightful place to spend a day. It was evident beforehand that the excursion would be largely patronized. Early yesterday morning the people began moving toward the Southern Indiana depot where the train which had been decorated with steamers and banners on the day before, was waiting. By the time the train left at a few minutes after seven o'clock, every coach in the long train was filled. More than five hundred of our citizens took advantage of the very low rate which was made for the day's outing. On the way over the train picked up fully a hundred more from the stations along the line. At Bedford another coach was added to the train and several passengers from that place took advantage of the excursion.

While in Bedford, the train was switched to the belt road and a trip was made through a part of the quarries whose output of stone have made Bedford famous. On the way out the train passed the new mill which is being erected for the Bedford Quarries Co., which will be one of the largest in the country for sawing stone. Further on the train was stopped and the excursionists left the train and saw the work of taking the stone from the quarry in progress. The rapidity with which the solid beds of stone were cut by steam power was a novel and interesting sight to most of the crowd. The trip over the belt occupied about an hour and a half and was enjoyed.

The train arrived at the Springs about 11:30 and the transfer to the grounds about a mile away was made by hacks and by others on foot. At the grounds, Mr. and Mrs. Dobbins, who have been there for only a few days, had made hasty preparations for the crowds and everything possible under the circumstances was done for the comfort of the visitors. M. Dobbins formerly was the proprietor of the New Lynn hotel here, and he met many of his former acquaintances in the crowd yesterday. The return trip was begun at 5:30 and about three hours later the tired but happy crowd was safely at home again. The Southern Indiana did everything that it could do to make the outing an enjoyable one. Mr. H. H. Roseman, general passenger agent, and J. M. Clark, the local ticket agent, accompanied the excursion and looked after the comfort of the passengers. Mr. Roseman pointed out the places of interest along the line as the train went down.

NOTES.

654 is reported as the whole number of tickets sold.

There were plenty of Kodak views taken of the buildings and grounds.

It was a representative Seymour crowd and everybody had in mind the enjoyment of the day.

Every town along the line between Seymour and Bedford was represented in the excursion.

The banners advertising the street fair Sept. 26-Oct. 2 attracted attention all along the route.

The big "injun" with his tomahawk in the front of the engine kept the track clear for the excursion train.

The only complaint was of the hack drivers who charged from ten to forty cents for the trip to the grounds according to what they thought the passengers would stand.

Decision in the Kay Case.

Yesterday the appellate court handed down its decision in the case from this county which involved the property of the Kay jewelry store which was open in Seymour for a short time in the summer of 1896. It will be remembered that C. C. Freeman, who owned the stock of goods in the store, and lived at Mt. Sterling, Ky., made a voluntary assignment of his property for benefit of his creditors to Robert M. Pittman, also of Kentucky. Pittman sent an attorney here to take charge of the stock of goods for him as assignee. About that time Marquart & Son, of Chicago, filed an attachment against the goods here for a sum which Freeman owed them, and Sheriff Stillwell seized the goods under the attachment and held them for the Chicago firm. A suit was brought by the assignee to replevin the goods on the ground that the assignment was made prior to the attachment. The case was tried before Judge Voyles and the decision rendered in favor of Marquart & Son. Marquart then sold the goods out at auction here. The case on the replevin suit was appealed to the higher court, and the decision yesterday reversed the decision rendered by Judge Voyles, and holds that the goods were rightfully in the hands of the assignee. But since they have been sold the recourse will be for a judgment against Marquart & Son for the value of the goods which they seized and sold. The real question at issue in the case was a question of law whether a voluntary assignment made in one state, Kentucky, is valid to cover goods owned by the assignor in another state. On this point the court in its decision says: "Where an assignment in a foreign state is made in accordance with the laws of such state and is not contrary to the laws of this state, it will uphold as affecting property located in this state." [O. H. Montgomery, was attorney for the assignee in the case and he is very much gratified that his position is sustained by the higher court after a hard fought legal contest.]

The quarterly meeting of the Board of State Charities was held yesterday. The meeting was devoted largely to the consideration of routine business. Governor Mount was present and made some suggestions. It has been proposed to recommend some changes in the rules of the Indiana Reformatory in this city governing the release of prisoners on parole. The governor disapproves of the parole of Winnie Smith, and believes the rules should guard against such paroles in future. The board announces that the several state institutions are in excellent condition.—Jeffersonville News.

MORE TROOPS FOR CUBA.

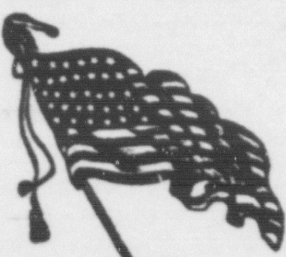

PORTO RICAN EXPEDITION ALSO BEING HASTENED.

A Fleet Possibly Will Go Against Spain's Home Ports to Compel Spain to Yield.

Four thousand more soldiers are to be sent to Santiago, starting from Mobile. Re-inforcements have been considered necessary, because Spain has concentrated 12,000 regular and 4,000 volunteers at Santiago, according to reports received at Washington.

The president has directed that every effort be made to have the Porto Rican army ready in two weeks. The army will probably embark from Fernandina, Fla. Some of the transports now with Major General Shafter's army will return after discharging their loads and about fifteen others will be chartered. The army will consist of 20,000 men. Fifteen thousand will be volunteers and 5,000 regulars. Maj. Gen. Coppington will himself make the selections.

It is not unlikely that the United States will shortly send a fleet against Spain's home ports, which will give Admiral Camara's fleet a chance to sail, if only to get out of the road. Nothing will be done until after the completion of the task at Santiago. It is possible the fleet may be composed of the battleships Oregon and Texas, armored cruiser Brooklyn, protected cruisers New Orleans, Minneapolis and Columbia and the auxiliary cruisers Harvard, Yale and St. Louis.

A Spaniard who surrendered because of exhaustion says many more would do so but for tales of butchery told by the Spanish officers.

How to Look Good.

Good looks are really more than skin deep depending entirely on a healthy condition of all the vital organs. If the liver is inactive you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils and gives a good complexion. Every bottle guaranteed sold at W. F. indispositions. He says he leaves sickness to the women folks.

That is the way men commit suicides—of thousands of them. A woman can prevent all cases of danger and her husband if she will. A little watchfulness—a suggestion now and then and a little of a good general remedy always at hand may save her husband's life. Dr. Pierce's Golden Medical Discovery is a remarkable remedy for hard working men and women. In a certain sense, it is a cure-all, for the reason that it goes down to bed-rock and cures the disorders that are responsible for the majority of all cases of dyspepsia, indigestion, the stomach, and makes the appetite keen and hearty. It invigorates the liver. It aids the natural processes of secretion and excretion. It makes the assimilation of the food perfect. It purifies the blood and fills it with the life-giving elements that build new and healthy flesh tissue. It tones the nerves. It is the great blood-maker and flesh-builder. It cures 98 per cent. of all cases of laryngeal, bronchial, throat and kindred affections, which, if neglected, lead up to consumption. It is also an unfailing remedy for all nervous disorders. A honest dealer will not urge a substitute.

"Last winter I took sick with what the doctors called a gripe," writes Mrs. Sarah Farley, of Fairfax, Atchison Co., Mo. "I was sick for about four months and nothing that I took seemed to do me any good. My friends thought I had consumption. I coughed up blood for a long while, and nearly gave up hope of ever getting well. I heard of Dr. Pierce's Golden Medical Discovery and thought I would try it. I had not finished the first bottle when I began to get better. I have taken two bottles of the 'Golden Medical Discovery' and one of the 'Favorite Prescription' and feel better than ever before in my life."

Coffee was served to the men at 3:30 yesterday morning and with the first blush of dawn the men were called quietly to quarters. The ships steamed in 5-knot speed to a 3,000-yard range, when they closed up, broadside on, until a distance of three cable lengths separated them. They were strung out in the form of a crescent, the heavy fighting ships in the center, the flagship on the right flank and the Massachusetts on the left flank.

The admiral signalled the ships not to fire until the enemy's guns in the embrasures could be seen by the gun captains.

Fifteen minutes later the New York opened with a broadside from her main

battery at the works on the east side of the entrance of the harbor. All the ships followed in red streaks of flame. The fleet, enveloped in smoke, pelted the hills and kicked up dirt and masonry. It was a magnificent spectacle from where the dispatch boat lay.

Though the gun captains had been cautioned not to waste ammunition, but to fire with deliberation, the fire was so rapid that there was almost continuous report. The measured crash of the big 13-inch guns of the battleships sounded above the rattle of the guns of the secondary batteries like thunder claps above the din of a hurricane. A strong land breeze off the shore carried the smoke of the ships seaward, while it let down a thick curtain in front of the Spanish gunners.

In 15 minutes one western battery was completely wrecked. The Massachusetts tore a gaping hole in the emplacement with a 1,000-pound projectile and the Texas dropped a shell into the powder magazine. The explosion wrought terrific havoc.

The frame was lifted, the sides were blown out and a shower of debris flew in every direction. One timber, carried out of the side of the battery, went tumbling down the hill. The loss of life must have been great.

The batteries on the east of Morro were harder to get at, but the New Orleans crossed the bows of the New York to within 500 yards of shore and played a tattoo with her long 8-inch rifles, hitting them repeatedly, striking a gun squarely muzzle on, lifting it off its trunnions and sending it sweeping a somersault high in the air.

At the close of the action a stream of multicolored flags floated from the New York generally complimenting the ships and especially commending the work of the Texas and the New Orleans.

The men of the New Orleans raised a cheer, which was passed quickly on from ship to ship, until every jackie in the fleet was howling himself hoarse.

CRITICISM DISARMED.

Cubans Have Shown Their Metal in Capturing Acerraderos.

Washington, June 17.—The work of the Cubans in reinforcing the marines at Guantanamo, and particularly in occupying Acerraderos, is receiving unstinted praise from officials here. Secretary Quesada and the Cuban officials also take much satisfaction in these reports.

Mr. Quesada said yesterday that the Cubans had not seen fit to reply to criticism current during the last few weeks as to the ineffectiveness of the Cuban soldiers, as they knew the criticisms were due to an ignorance of the careful plans, largely matured at Washington, by which the Cuban forces were to execute their part of a well considered programme.

"But now that the Cuban flag is floating over Acerraderos," continued Mr. Quesada, "all the criticisms are answered. Acerraderos is about 15 or 20 miles west of Santiago, and is the port for the great iron and copper mines of that locality. It should not be confounded with Aquaderos, another suburban town to the southeast of Santiago. It is not even more important, from a strategic standpoint, than Aquaderos, as it has exceptional landing facilities.

"The achievement of General Rabi in making a forced march from Bayamo characteristic of the dash and military genius of that officer. He is chief of staff to Garcia and has the rank of general of a division, which is midway between your brigadier general and major general. He is about 45 years old, tall, thin and muscular, and knows no fear. He takes pride in the fact that he is partly of Indian descent, and he has the natural fighting capacity of an Indian. He made a name for himself during the last Cuban war, and soon took high rank when the present war broke out.

"When General Martinez Campos thought to make short work of the present war, he led the Spanish forces to Saelo Indio, Cacucho, and Peralito, where he met General Rabi with a Cuban army much smaller than that of

Sampson Again Bombards the Spanish Batteries at Santiago.

EL MORRO IS SPARED

Because It Is There the Brave Hobson Is a Prisoner.

ASSAULT WAS TERRIFIC

All Ships in the Fleet Taking Part.

Vesuvius Dropped Dynamite Into the Harbor Where the Torpedobombs Lay Before the Other Vessels Came Into Action—The New Orleans and Texas' Execution Was Terribly Effective on the Enemy's Works—Dons Deserted Their Guns and One Battery Was Blown to Atoms.

Off Santiago de Cuba, June 16, via Kingston, Jamaica, June 17.—Rear Admiral Sampson's fleet bombarded the batteries at Santiago de Cuba for the third time at daylight yesterday. For hours the ships pounded the batteries at the right and left of the entrance, only sparing El Morro, where Lieutenant Hobson and his companions of the Merimac are in prison. The western batteries, against which the main assault was directed, were badly wrecked. One was utterly destroyed. In others many guns were dismounted.

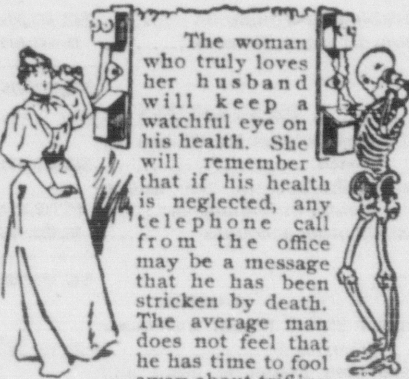

At first the Spaniards replied passionately and wildly, but impotently. Then most of the guns were deserted. Not a ship was struck nor a man injured on the American side.

It is believed that the enemy's loss of life was heavy.

As a preliminary to the hammering given the batteries the dynamite cruiser Vesuvius at midnight was given another chance. Three 250-pound charges of gun cotton were sent over the fortifications at the entrance. The design was to drop them in the bay, around the angle back of the eminence on which El Morro is situated, where it was known that the Spanish torpedobomb destroyers were lying. Two charges went through, as no reports were heard—a peculiarity of the explosion of gun cotton in water. Whether the destroyers were demolished is not known, but the destructive area of gun cotton is large and it would not be surprising if it is subsequently ascertained that one or both were destroyed.

The third charge exploded with terrific violence on Cayo Smith.

From where the fleet lay the entrance to the harbor looked, in the black night, like a door opening into the livid fire of a Titanic furnace. A crater big enough to hold a church was blown out of the side of the Cayo Smith and was clearly seen from the ships.

The woman who truly loves her husband will keep a watchful eye on his health. She will remember that if his health is neglected, any telephone call from the office may be a message that he has been stricken by death.

The average man does not feel that he has time to fool away about trifling

indispositions. He is too busy making money. He says he leaves sickness to the women folks.

That is the way men commit suicides—of thousands of them. A woman can prevent all cases of danger and her husband if she will. A little watchfulness—a suggestion now and then and a little of a good general remedy always at hand may save her husband's life. Dr. Pierce's Golden Medical Discovery is a remarkable remedy for hard working men and women. In a certain sense, it is a cure-all, for the reason that it goes down to bed-rock and cures the disorders that are responsible for the majority of all cases of dyspepsia, indigestion, the stomach, and makes the appetite keen and hearty. It invigorates the liver. It aids the natural processes of secretion and excretion. It makes the assimilation of the food perfect. It purifies the blood and fills it with the life-giving elements that build new and healthy flesh tissue. It tones the nerves. It is the great blood-maker and flesh-builder. It cures 98 per cent. of all cases of laryngeal, bronchial, throat and kindred affections, which, if neglected, lead up to consumption. It is also an unfailing remedy for all nervous disorders. A honest dealer will not urge a substitute.

"Last winter I took sick with what the doctors called a gripe," writes Mrs. Sarah Farley, of Fairfax, Atchison Co., Mo. "I was sick for about four months and nothing that I took seemed to do me any good. My friends thought I had consumption. I coughed up blood for a long while, and nearly gave up hope of ever getting well. I heard of Dr. Pierce's Golden Medical Discovery and thought I would try it. I had not finished the first bottle when I began to get better. I have taken two bottles of the 'Golden Medical Discovery' and one of the 'Favorite Prescription' and feel better than ever before in my life."

General Brooke thinks his army almost ready for any kind of duty.

Chickamauga National Military Park, Ga., June 17.—The commanding officer of the fine weather to put the commands through various drills and instruction exercises, and every regiment at the park was in the field from three to five hours. General Brooke is greatly pleased with the progress being made and now feels confident that as soon as thoroughly equipped his army will be already for most any kind of duty to which they may be assigned.

Colonel Lee, chief quartermaster, has been a very busy man since the troops began to arrive at the park, and yet his work is only fairly under way. He stated that, notwithstanding the numerous shipments of wagons and mules that have arrived, the regiments are only partially provided for, at least one-half the wagons and teams allowed the regiments having yet to be supplied.

The Dixon Poisoner Hanged.

Sacramento, June 17.—Frank Bellows, the Dixon poisoner, was hanged at the Dixon prison yesterday. He made no confession or statement on the scaffold, but reiterated the statement he made after his arrest, in which he admitted he murdered his brother and sister because he had not received a fair share of his father's estate.

Fire in Armour's Packingshouse.

Chicago, June 17.—A fire broke out in a part of the Armour packingshouse in the stockyards and a general alarm was sent in. The building in which the fire started was gutted and the flames spread to the adjoining paintshop.

Approved by the Sultan.

Constantinople, June 17.—The sultan has given notification of his approval of the appointment of Oscar S. Straus of New York as United States minister to Turkey, in succession to Dr. James B. Angell, resigned.

THE WAR LOAN. The present administration is to be congratulated on its decision to offer the entire issue of the bonds for the war to the people of the country, in such denominations that almost anybody can own more or less of the bonds. The series is to be issued in denominations of \$20, \$100, \$500 or larger. This makes it possible for the people to take the entire issue, for the authorities have announced that the preference will be given in accepting the subscriptions to those who subscribe for the small amounts. It is to be a popular loan in the fullest sense of the term and the people are given the preference over the bankers and syndicates who have already announced their willingness to take all of the issue that is not taken by the people. United States bonds are recognized everywhere as the most secure form of investment that can be obtained. There is never any question as to their value. They are always saleable, so that anyone holding U. S. bonds can turn them into cash at once. If one wishes to borrow money they can be used as collateral to secure the loan and are always desirable for this purpose. Another feature that makes the bonds desirable is that they are not subject to taxes of any kind, federal, state or municipal, and while the rate of interest paid by the government is low, it is practically as good as when money is loaned at six per cent. and taxes amounting to between two and three per cent. paid on it. Another feature is that the interest is paid quarterly instead of annually. Subscriptions for the war loan can be made at any post-office or national bank until July 14 when the period of subscriptions will end. For all amounts of less than \$500 the money must be paid at the time the subscription is made, and the government pays interest on it from the time the money is paid in. We believe that the loan will be popular with the people and will strengthen the administration with them. It would be a good thing if a considerable part of the loan could be taken by Seymour and Jackson county people who have money, which they wish to invest where it will bring a fair return and be absolutely secure. The matter of the violations of the bicycle ordinance was called to the attention of the council last night. There is no question that its provisions should be more rigidly observed by riders in all parts of the city. Foot travelers are frequently more or less endangered by the violators of the ordinance. It is impossible for the police of the city to be in all places at the same time to apprehend violators of the law and it becomes the duty of every citizen to see that in his own case there is no cause of complaint from any violation of law on his part.

HELP IS AT HAND. JOHN MORROW'S DISCOVERY GIVES HELP TO DIABETES PATIENTS. One of the Worst Diseases Known to Man is Overcome by Modern Science. When the common symptoms of kidney troubles are neglected the careless sufferer is in great danger of contracting diabetes or Bright's disease, two of the most terrible afflictions that have been imposed on mankind. The remedy for the earliest stages, as well as the worst cases, one that will restore the kidneys to sound health, is MORROW'S KIDNEYS. These yellow tablets are taken when the back aches, or when headaches, chilliness, loss of energy or pain in urinating show that the kidneys are out of order. Diabetes, that disease which is almost as deadly as Bright's disease, is indicated by failure of strength and emaciation. The mouth is pasty, skin hard and dry, bowels are constipated, vomiting is frequent, the vision becomes dim, memory and intellect fail, and the temper becomes irritable. A recent case of this fearful disease, that of Mr. C. E. Clippinger, a well-known confectioner of six South Limestone street, Springfield, Ohio, he writes: "I have been a constant sufferer from kidney disease for the past year. Very often upon arising in the morning the pain was so severe I could scarcely get about at all. I consulted with different physicians and they all told me that I was troubled with diabetes, and treated me for same, but I failed to derive any benefit from their medicine. I was finally persuaded to give MORROW'S KIDNEYS a trial, and to my great surprise after I had taken but one box, the pain left me and I have experienced no trouble since then. I feel entirely well, and am enjoying better health in every way than for several years. The fame of MORROW'S KIDNEYS has created a demand for them everywhere and they are now sold by all dealers at 25 cents a box. I paid for \$2.50. If for any reason the dealer cannot supply you they will be sent postpaid on receipt by the Herb Medicine Co., Springfield, Ohio. ALFRED COX, Druggist, Chestnut Street, near Postoffice.

THE VICIOUS JAGUAR HE FINDS A DEADLY ENEMY IN THE PLUCKY PUMA. These Fierce South American Brutes Fight Each Other to the Death on Sight—Two Battles That Show the Characteristics of the Animals. "On the Apure river, near its head, lives—or did live there five years ago—a woman of mixed Spanish and Indian race named Maria Padilla, the wife of the mayordomo, or foreman, of a cattle ranch. I have talked with her and heard from her lips the account of the strange adventure she had when a child of 7 years. "Her parents with their children were making a journey over a trail that led along the foothills of the Maritime Andes. They had encamped for the night, and this child, while her parents' attention was occupied, started into the forest to gather firewood as she had often seen her mother do. Her absence was not noticed until she had been gone some time from the camp. As she gathered dry sticks into a bundle she saw a large, spotted animal stealing swiftly toward her. "Every South American country girl of 7 knows a jaguar when she sees him, whether she has ever seen one before or not, for the dread of these animals is an instinct among the inhabitants of regions which they frequent. Overcome by fear the girl could only stand still and await her fate. With her eyes riveted on the jaguar she did not see where they came from, but of a sudden she perceived that he was savagely fighting with two huge, tawny animals that had sprung upon him. "The fight seemed to her to last a long time, and once the brutes in their struggles came very near to where she stood. The pumas that had attacked him killed the jaguar at last, and after staring over the body a few minutes as if to assure themselves that he would not revive they for the first time turned their gaze toward the child, who had been too much terrified to improve her chance to run away while the beasts were fighting. "They favored her with a long stare, and then, not offering to approach or harm her, turned deliberately away and trotted into the depths of the forest. They scarcely had disappeared when her father, having missed the child and guided by the sounds of the fight, came running to the place with gun and machete and found her safe. He got a jaguar skin as a trophy, though it was cut too nearly into ribbons by the pumas' claws to be of value. "In the Guarico country, at a village called Paraya, near the Merida trail, I saw an Indian named Jose Lobado whose face and head were deeply scarred and whose body was a network of similar scars from wounds received through being carried away by a jaguar when an infant in arms. Of course he could not remember the occurrence, but his mother, who had rescued him, described it to me. "She had gone to a mata, or wooded spot, on the pampas for firewood, carrying her child, after the fashion of Venezuelan women of humble station, in a shawl looped from her shoulder. This shawl, with the small boy in it, she slung to a low tree branch while she gathered her bundle of sticks, and she did not perceive the approach of a jaguar until he had seized the child and was carrying it away. "The mother grasped her machete and ran after the jaguar, shrieking. She managed to keep the beast in sight, but he was rapidly getting beyond her view when suddenly the jaguar stopped, put the child down and bristling for fight stood with his forepaws resting upon it. "Then the mother saw that a puma was fronting the jaguar. She hurried on toward where the two beasts faced each other, growling and snarling. Before she got to them the puma sprang, and at once the two were fighting fiercely above the child. In the struggle the child was rolled to one side, but before the mother could get to it the jaguar broke away from the puma and springing to the boy again crouched with his paws above him as before. "The puma leaped again and the fight was renewed, but again the jaguar got clear and jumped to guard his prey before the mother could get a chance to snatch her child. Once more the puma attacked his foe, and this time as the beasts struggled and tore each other an accidental kick from one of them sent the boy 20 feet away, almost to the mother's feet. "Catching him up she ran for home and got safe to the house. The boy, though covered with claw wounds from head to foot and bearing deep marks of the jaguar's teeth in the back, where the beast had seized him to carry him away, recovered completely from his injuries, although bearing the scars for his lifetime. The puma and the jaguar were found, both dead, at the place where they had fought."—Philadelphia Times.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Props., Toledo, O. Mr. John Bevins, editor of the Press, Anthon, Iowa, says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for fifteen years, have recommended it to hundreds of others, and have never known it to fail in a single instance. For sale by C. W. Milhous. Mr. P. Ketchum of Pike City, Cal. says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others testified to the prompt relief from pain which this liniment affords. For sale by C. W. Milhous. Many People Cannot Drink Coffee at night. It spoils their sleep. You can drink Grain-O when you please and sleep like a top. For Grain-O does not stimulate; it nourishes, cheers and feeds. Yet it looks and tastes like the best coffee. For nervous persons, young people and children Grain-O is the perfect Drink. Made from pure grains. Get a package from your grocer today. Try it in place of coffee. 15 and 25c. Democratic State Convention, June 22, 1898. The Southern Indiana Railway will sell round trip tickets at half rate, June 21st and 22nd, limited returning to June 23d. H. A. Roseman, general passenger and ticket agent. I was seriously afflicted with a cough or several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, Mrs. MARY A. BEARD, Claremore, Ark. For sale by C. W. Milhous. Give the Children a Drink Called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about as much as coffee. 15 and 25c.

MORE TROOPS FOR CUBA.

PORTO RICAN EXPEDITION ALSO BEING HASTENED.

A Fleet Possibly Will Go Against Spain's Home Ports to Compel Spain to Yield.

Four thousand more soldiers are to be sent to Santiago, starting from Mobile. Re-inforcements have been considered necessary, because Spain has concentrated 12,000 regular and 4,000 volunteers at Santiago, according to reports received at Washington.

The president has directed that every effort be made to have the Porto Rican army ready in two weeks. The army will probably embark from Fernandina, Fla. Some of the transports now with Major General Shafter's army will return after discharging their loads and about fifteen others will be chartered. The army will consist of 20,000 men. Fifteen thousand will be volunteers and 5,000 regulars. Maj. Gen. Coppington will himself make the selections.

It is not unlikely that the United States will shortly send a fleet against Spain's home ports, which will give Admiral Camara's fleet a chance to sail, if only to get out of the road. Nothing will be done until after the completion of the task at Santiago. It is possible the fleet may be composed of the battleships Oregon and Texas, armored cruiser Brooklyn, protected cruisers New Orleans, Minneapolis and Columbia and the auxiliary cruisers Harvard, Yale and St. Louis.

A Spaniard who surrendered because of exhaustion says many more would do so but for tales of butchery told by the Spanish officers.

How to Look Good.

Good looks are really more than skin deep depending entirely on a healthy condition of all the vital organs. If the liver is inactive you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils and gives a good complexion. Every bottle guaranteed sold at W. F. Peter's drug store. 50 cents per bottle.

One lot of men and boys all wool sweaters, colors plain, white and red, worth \$1.25 and \$1.50. In order to close them out we will make the price 75 cents.

BUSINESS MEN'S OUTING.

Seymour Takes Indian Springs Six Hundred Strong.—Delightful Trip.

Yesterday was an almost ideal day for a picnic and Indian Springs is a most delightful place to spend a day. It was evident beforehand that the excursion would be largely patronized. Early yesterday morning the people began moving toward the Southern Indiana depot where the train which had been decorated with streamers and banners on the day before, was waiting. By the time the train left at a few minutes after seven o'clock, every coach in the long train was filled. More than five hundred of our citizens took advantage of the very low rate which was made for the day's outing. On the way over the train picked up fully a hundred more from the stations along the line. At Bedford another coach was added to the train and several passengers from that place took advantage of the excursion.

While in Bedford, the train was switched to the belt road and a trip was made through a part of the quarries whose output of stone have made Bedford famous. On the way out the train passed the new mill which is being erected for the Bedford Quarries Co., which will be one of the largest in the country for sawing stone. Further on the train was stopped and the excursionists left the train and saw the work of taking the stone from the quarry in progress. The rapidity with which the solid beds of stone were cut by steam power was a novel and interesting sight to most of the crowd. The trip over the belt occupied about an hour and a half and was enjoyed.

The train arrived at the Springs about 11:30 and the transfer to the grounds about a mile away was made by hacks and by others on foot. At the grounds, Mr. and Mrs. Dobbins, who have been there for only a few days, had made hasty preparations for the crowds and everything possible under the circumstances was done for the comfort of the visitors. M. Dobbins formerly was the proprietor of the New Lynn hotel here, and he met many of his former acquaintances in the crowd yesterday. The return trip was begun at 5:30 and about three hours later the tired but happy crowd was safely at home again. The Southern Indiana did everything that it could to make the outing an enjoyable one. Mr. H. H. Roseman, general passenger agent, and J. M. Clark, the local ticket agent, accompanied the excursion and looked after the comfort of the passengers. Mr. Roseman pointed out the places of interest along the line as the train went down.

NOTES.

654 is reported as the whole number of tickets sold.

There were plenty of Kodak views taken of the buildings and grounds.

It was a representative Seymour crowd and everybody had in mind the enjoyment of the day.

Every town along the line between Seymour and Bedford was represented in the excursion.

The banners advertising the street fair Sept. 26-Oct. 2 attracted attention all along the route.

The big "injun" with his tomahawk on the front of the engine kept the track clear for the excursion train.

The only complaint was of the hack drivers who charged from ten to forty cents for the trip to the grounds according to what they thought the passengers would stand.

Decision in the Kay Case.

Yesterday the appellate court handed down its decision in the case from this county which involved the property of the Kay jewelry store which was open in Seymour for a short time in the summer of 1896. It will be remembered that C. C. Freeman, who owned the stock of goods in the store, and lived at Mt. Sterling, Ky., made a voluntary assignment of his property for benefit of his creditors to Robert M. Pittman, also of Kentucky. Pittman sent an attorney here to take charge of the stock of goods for him as assignee. About that time Marquart & Son, of Chicago, filed an attachment against the goods here for a sum which Freeman owed them, and Sheriff Stillwell seized the goods under the attachment and held them for the Chicago firm. A suit was brought by the assignee to replevin the goods on the ground that the assignment was made prior to the attachment. The case was tried before Judge Voyles and the decision rendered in favor of Marquart & Son. Marquart then sold the goods out at auction here. The case on the replevin suit was appealed to the higher court, and the decision yesterday reversed the decision rendered by Judge Voyles, and holds that the goods were rightfully in the hands of the assignee. But since they have been sold the recourse will be for a judgment against Marquart & Son for the value of the goods which they seized and sold. The real question at issue in the case was a question of law whether a voluntary assignment made in one state, Kentucky, is valid to cover goods owned by the assignor in another state. On this point the court in its decision says: "Where an assignment in a foreign state is made in accordance with the laws of such state and is not contrary to the laws of this state, it will uphold as affecting property located in this state." [O. H. Montgomery, was attorney for the assignee in the case and he is very much gratified that his position is sustained by the higher court after a hard fought legal contest.]

The quarterly meeting of the Board of State Charities was held yesterday. The meeting was devoted largely to the consideration of routine business. Governor Mount was present and made some suggestions. It has been proposed to recommend some changes in the rules of the Indiana Reformatory in this city governing the release of prisoners on parole. The governor disapproves of the parole of Winnie Smith, and believes the rules should guard against such paroles in future. The board announces that the several state institutions are in excellent condition.—Jeffersonville News.
